

**ENERGY STAR**® products can help us save our environment...AND there are benefits for YOU!

**ENERGY STAR**® is a government-backed program helping businesses and individuals protect the environment through superior energy efficiency.

Results are already adding up. Last year alone, Americans, with the help of **ENERGY STAR**® saved enough energy to power 10 million homes and avoid greenhouse gas emissions from 12 million cars - all while saving \$6 billion.

For these reasons, the Department of Energy is a proud supporter of the **ENERGY STAR**® program.

### **Save Energy, Save Money, Help the Environment**

When buying an appliance, remember that it has two price tags: what you pay to take it home and what you pay for the energy and water it uses.

**ENERGY STAR**® qualified appliances incorporate advanced technologies that **use 10–50% less energy and water than standard models**. The money you save on your utility bills can more than make up for the cost of a more expensive but more efficient **ENERGY STAR**® model.

Browse our "[Great Deals on New Appliances](#)" Tab to find Energy Star Refrigerators, Freezers, Dishwashers, and Washers.
